

BRAINERD DAILY DISPATCH

VOLUME 6, NO. 68.

BRAINERD, MINN., WEDNESDAY, AUGUST 22, 1906.

PRICE TWO CENTS

HEAVY LOSS OF LIFE

ABOUT THREE THOUSAND PERSONS WERE KILLED BY CHILEAN EARTHQUAKE.

HEAVY DAMAGE TO PROPERTY

FINANCIAL LOSS LIKELY TO BE IN EXCESS OF ONE HUNDRED MILLION DOLLARS.

Valparaiso, Aug. 22.—The loss of life by the earthquake of Aug. 16 probably will not be short of 3,000, while the property destroyed is estimated at \$60,000,000, and probably far in excess of that sum.

Order is being maintained with the most severity by the military, police and armed citizen patrols, who are empowered to shoot looters on the spot. The authorities are showing the most energy in the protection of property.

With the first terrible shock of the earthquake buildings collapsed, their falling causing tremendous noise. The inmates in many cases were unable to escape. The shock was followed almost immediately by a fierce storm, the wind prostrating walls that had been weakened by the earthquake, and these broke trolley wires, which crashed incessantly. The second shock was even heavier than the first.

Five minutes afterward fires started in every direction and immediately the whole town was illuminated by gigantic flames. The firemen made a desperate fight, though there was but little water, as most of the mains had been broken by the early tremor. The electric theater and the Naval club were utterly destroyed by the earthquake and the National theater succumbed to earthquake and fire.

Commercial Houses Ruined.

The Club de Seniembre, the Church of La Merced, the buildings of the French fathers, the navy department building, the city hall and many other buildings were destroyed by the earthquake. The destruction by fire, however, was infinitely larger and probably 60 per cent of the commercial houses were totally ruined. In Brazil avenue alone nearly thirty blocks of buildings from three to five stories high were destroyed.

The greatest damage from the earthquake occurred in the provinces of Valparaiso and Aconcagua. The town of Abasco suffered severely. Llai Llai

is reported to have entirely disappeared, and Limache and Hicero Viejo have been almost totally wrecked. At Vina del Mar three-quarters of the houses are in ruins.

The losses in the entire country are held at \$50,000,000.

The authorities at Valparaiso have taken over the feeding of the people and provisions are being brought in from places that were not destroyed.

Slight earthquake shocks are continuing. The people have not yet returned to their homes, but are sleeping on the surrounding hills and in the streets and squares. The fires have all been extinguished. More than 100 men taken in the act of committing robberies have been shot.

CIRCULATION OF FALSE NEWS.

Throws the Population of Santiago Into a Panic.

Santiago, Chile, Aug. 22.—Almost all the foreign ministers here have expressed the condolence of their governments to President Riesco.

The population of Santiago was thrown into a condition of extreme alarm Monday night as a result of the circulation of false news that the observatory had announced a second horrible catastrophe to be imminent. People would not sleep indoors and large numbers spent the night on the streets and in the squares. The alarm originated from some persons declaring that they had seen the black flag, the sign of danger, flying from the observatory on San Cristobal hill. The shrieking of steam sirens announcing danger also added to the alarm and the police, instead of calming the people, lost their heads and added to the terror. President Riesco wrote a letter to the director of the observatory asking for an explanation. The director answered that the whole thing was a misapprehension.

CYCLONE IN MICHIGAN.

Demolishes Buildings and Endangers Lives of Workmen.

Jackson, Mich., Aug. 22.—A fierce cyclone of short duration swept through the eastern section of this city Tuesday afternoon, practically demolishing the Jackson body works, in which 100 workmen narrowly escaped with their lives; damaging the plant of the John Hutchinson Manufacturing company and the National Wheel company, unroofing many buildings and uprooting a large number of trees.

SEVEN WORKMEN KILLED.

Meet Death in a Big Rock Quarry in Mexico.

Laredo, Tex., Aug. 22.—News has just reached here from Salome Botaljo, Mex., that seven workmen were killed at that place Monday in a big rock quarry being operated by the National railroad.

WINS THE LIPTON CUP.

Cherry Circle Captures Trophy Given by Irish Sportsman.

Chicago, Aug. 22.—Cherry Circle, flying the colors of the Chicago Athletic club, saved the Lipton cup by finishing fourth in Tuesday's race to Billpost, Columbia Yacht club; Menlo, Milwaukee Yacht club, and Toledo, Toledo Yacht club. The result of the race gives Cherry Circle 266.7 points, Billpost, which won Tuesday's contest, being second with 244.4 points. Had Cherry Circle taken sixteen more seconds to finish the race, the series would have been a tie between it and Billpost.

The last contest was sailed over a quadrangular course of three nautical miles to the leg.

PASSENGER TRAIN DERAILED.

Engineer and Fireman Killed in Wreck at Taft, Ind.

Indianapolis, Ind., Aug. 22.—Passenger train No. 25 on the Big Four railroad was derailed at Taft, a small station twenty miles northeast of Indianapolis. The engineer and fireman were killed, the engine rolling down an embankment and burying them beneath it. None of the passengers were injured.

The dead are Engineer Parker Eubig, Indianapolis; Fireman Harry Guy, Indianapolis.

The engine, tender, baggage car and smoking car left the track and rolled down an embankment. The passenger cars remained on the track.

INSPECTS PACKING PLANTS.

Secretary Wilson Pays a Visit to Those in South Omaha.

Omaha, Aug. 22.—Secretary Wilson of the department of agriculture arrived at a local hotel late Monday night, and without registering or disclosing his identity early in the morning drove alone in a closed carriage to the packing plants in South Omaha. After a short inspection of several of the plants the secretary again returned to this city, saying:

"I am going to Omaha, but I don't want my identity known. I have inspected all the packing plants and found them in good condition. I will go from Omaha to Minneapolis."

SAILED FROM FLORIDA

RUMORED THAT A FILIBUSTERING EXPEDITION IS NOW BOUND FOR CUBA.

HAS REACHED ITS MAXIMUM

GENERALLY BELIEVED THAT THE REVOLUTION WILL SPREAD NO FURTHER.

Jacksonville, Fla., Aug. 22.—Rumors have been freely circulated here that Florida Cubans have fitted out a successful filibustering expedition, which sailed from one of the keys near Key West, carrying arms and ammunition to the revolutionists on the island, but it has been impossible to verify these reports, for the reason that the Cubans learned a lesson in the revolution against Spain and are now much more cautious in their movements.

HAS REACHED THE MAXIMUM.

Believed That Revolution in Cuba Will Not Spread.

Havana, Aug. 22.—The indications now are that the revolution in Western Cuba already has practically reached its maximum. The government and people generally believe the movement has received all the accessions it will be likely to gain. The promptness of the government in arresting suspected leaders and plotters in Havana and elsewhere and in sending reinforcements to the disturbed districts has had an excellent effect in strengthening public confidence and overaweing sympathizers with the movement.

On the other hand, and notwithstanding the quietude of the Pinar del Rio region throughout the day, peaceable inhabitants of the cities of Pinar del Rio, Consolacion del Sur, San Juan del Martinez and other western towns are in hourly apprehension of the attack and occupation of those places. The fact that probably 1,000 insurgents are intending to concentrate in the province of Pinar del Rio upon towns inadequately guarded by small detachments of rural guards, mostly inexperienced in warfare, makes the situation grave, but as the insurgents have not assumed any strongly offensive attitude or interfered with trains carrying troops, horses and supplies, it is inferred that they are not prepared or lack the nerve to try for control of the territory.

There have been many rumors of fights at various points in the province of Pinar del Rio, but they have not been confirmed by government or press dispatches. However, night attacks on the city of Pinar del Rio and other towns continue to be regarded as a probability. The government wires are working freely. Pinar del Rio, Consolacion del Sur and San Juan del Martinez have been reinforced by 200 troops. The loyal citizens are well equipped to repel invasion.

Fighting in Havana Province.

There was some fighting Tuesday in Havana province and more is hourly expected. A detachment of rural guards encountered a portion of Bandera's band, with which shots were exchanged at close range. One insurgent was killed and the others scattered. Fifty rural guards are in pursuit of the main band.

It is reported that the town of Guines, twenty miles south of Havana, was peacefully occupied by an band of insurgents Tuesday evening. Guines is the center of the American truck farming industry, but the farmers have not been molested.

The old Havana arsenal is the scene of the enlistment of a new quota of rural guards. This work is in the charge of veterans appointed for the purpose.

After consultation with members of the cabinet President Palma rescinded his order for the assignment of General Montalvo as director of military operations against the insurgents on the ground that it would be incompatible with his position as secretary of public works.

The absence from the capital of Vice President Mendes Capote, who hitherto has been right hand man and adviser of President Palma and who is at his summer home at Cardenas, is exciting some comment. In order to appreciate the motives of the insurgents it should be remembered that political partisanship in Cuba is radical and fierce and with the opposition takes the form of violent condemnation of the dominant party.

The alleged repressions of 1905 still rankle with the more radical members of the Liberal party. The revolutionary feeling also is quickly revived by tales of President Palma's alleged unfairness. This being the idle season in both the sugar and the tobacco

fields men are easily led into excitement.

Murphy Favorable to Hearst.

New York, Aug. 22.—Charles F. Murphy, leader of Tammany Hall, says he has not observed any sentiment in Tammany for the nomination of District Attorney Jerome for governor by the Democratic state convention, but there was, he said, plenty of sentiment for W. R. Hearst. Mr. Murphy declared he was not committed to any candidate.

ORDERED OUT OF TEXAS.

Negro Troops Will Be Removed From the Lone Star State.

Washington, Aug. 22.—The negro federal troops have been ordered out of Texas. Instead of going to Fort Ringgold, about 100 miles up the Rio Grande, the battalion of the Twenty-fifth infantry has been ordered to Fort Reno, Okla. This action is in accordance with the direction of the president and also is recommended by General McCaskey, commanding the department of Texas. By direction of the president, General J. Franklin Bell, chief of staff, will make a thorough investigation of the whole Brownsville affair and report to the president.

Fort Brown is to be abandoned. The company of the Twenty-sixth infantry which was sent there Tuesday will not stay very long. Its duty is to pack up all the movable government property, which will be shipped to other posts, when the troops will be ordered away.

Fort Brown will be abandoned temporarily, according to the order, but it is understood quite well that the temporary abandonment will be permanent.

The investigation now under way will be continued and the war department authorities state that every effort will be made to find out the facts and fix the responsibility for the disturbance and that any soldiers found guilty will be punished.

FACE DEATH BRAVELY.

Workmen Overcome by Gas in Effort to Succor Their Fallen Comrade.

Pittsburg, Aug. 22.—Three men are dead, two are in a serious condition and nine others were rendered unconscious by a blowout of accumulated gas at the Eliza furnaces of the Jones & Laughlin Steel company at Soho, this city. The men were dumping ore and coke into the furnace from the top when the explosion occurred. Flames shot upward and enveloped Andrew Marsley in the deadly fumes and he fell over unconscious. His brother George went to his assistance, but he, too, was overcome and Michael Boise, who followed him, was also rendered insensible. Realizing that the same fate awaited them each of the eleven men remaining nevertheless attempted to succor those first attacked and every one in his turn was overcome. By this time notice of the accident had reached the workmen below and the gas was shut off. The men were then rescued and taken to the company's emergency hospital. On the way the three named died.

IN A BATTLE ON THE STREET.

Two Italians Killed and Four Others Wounded.

Buffalo, N. Y., Aug. 22.—Two families of Italians engaged in battle in Main street at night. Two men are dead and four are in the hospital with serious wounds.

Some time ago Frank Sardinia had a fist fight with Dominic Garcia. Bad blood had existed ever since between the two men and Garcia and his brother lay in wait for Sardinia, who came along the street accompanied by his two brothers.

The Garcias stepped out to confront the Sardinias and the battle was on. Raphael Balistris attempted to interfere and he was stabbed to death. When the police arrived Frank Sardinia also lay dead in the street and his two brothers were kneeling beside him weeping and moaning. Dominic Garcia attempted to escape, but fell from his wounds. He is expected to die.

DUEL TO THE DEATH.

One Participant Instantly Killed and the Other Dies of His Wound.

Muskogee, I. T., Aug. 22.—Near Dustin, I. T., twenty-five miles southwest of Muskogee, James Haynes and George Brown fought a duel with revolvers. Brown was killed outright and Haynes died shortly after. Haynes was a prominent Indian citizen and member of the Creek council.

One Killed and Two Injured.

Nowata, I. T., Aug. 22.—As a result of an explosion of a gas and oil well in the Coody's Bluff field, James Miller, a tool dresser, was burned to death. Milton Heckathorn, a driller, was fatally injured and Harry Withers badly burned.

Regimental Commander Killed.

Sanara, Aug. 22.—The commander of the Borrisov regiment was attacked and killed at his residence here. The murderers escaped after saturating the body of their victim with alcohol and setting it on fire.

ALIENISTS VISIT HARRY THAW.

Denied, However, That Mental Examination Was Made.

New York, Aug. 22.—Doctors D. D. Evans of Morris Plains, N. J., and C. J. Wagner of this city called on Harry K. Thaw, who shot and killed Stanford White, in the Tombs Tuesday. Both physicians are known as alienists and Dr. Evans figured in the Teranova trial. Clifford W. Hartridge, counsel for Thaw, accompanied the doctors.

The visit gave rise to reports that a mental examination of Thaw was to be made, but Dr. Frank McGuire, the Tombs physician, who went to Thaw's cell when informed of the visit, was assured that this was not so.

A. R. Peabody, another of Thaw's counsel, said that Thaw had a cold and that the doctors had been called into see him.

Miss May McKenzie, the actress, visited Thaw in company with Mrs. Thaw. This is the first time that Miss McKenzie, who it is expected to be a witness in the case, had seen Thaw since his arrest, though she has tried on several occasions to do so.

FATAL EXPLOSION OF GAS.

Two Men Killed and Five Others Badly Injured.

Mahonoy City, Pa., Aug. 22.—By an explosion of gas in the West Buck Mountain gangway in the fifth level of the Vulcan colliery of the Mill Creek Coal company, Charles Stankus, aged twenty-five years, and John Maruka, aged thirty years, were instantly killed, five persons were probably fatally injured and about a dozen were overcome by after-damp. The injured are:

Fire Bosses Michael Curtis and William Jones, John Maley, John Broker and Frank Brennan, who, it is believed, cannot recover. There were two explosions at intervals of ten minutes.

Stankus was killed by the first explosion, and Maruka was killed as he was preparing to carry the body of Stankus to the gangway.

FIVE DEATHS IN CHICAGO.

Many Persons Also Prostrated by the Hot Wave.

Chicago, Aug. 22.—Rain early in the afternoon checked the hot wave which had killed and injured a number of Chicagoans earlier in the day and brought welcome though not pronounced relief.

Five deaths and many prostrations from the suffocating heat were reported to the police. In the West Side ghetto district there was much suffering and thousands sought refuge in the parks along the lake front.

Minnesota Bank Robbed.

Crookston, Minn., Aug. 22.—After cutting telephone wires to insure a measure of security in their operations, robbers robbed the bank at Mentor, securing \$1,200, which they carried off in a cart. They made good their escape.

FIGHT OVER RESOLUTIONS.

Democrats of Ohio Unable to Reach an Agreement.

Columbus, O., Aug. 22.—The fight in the resolutions committee of the Democratic convention proved strenuous and at an early hour in the morning the difference of opinion was as pronounced as when the sub-committee began its work at 7 o'clock the previous evening and adjournment was not in sight. The sub-committee finally reported to the whole committee at 11 o'clock and the draft of the platform then submitted was at once read. It included plank endorsing Bryan, favoring a specific franchise tax, initiative and referendum and various other matters, while in a general way approving and reaffirming previous expressions of party principle.

W. L. Finley, secretary of the state committee and a member of the sub-committee, at once announced that the proposed platform was not satisfactory to him and could not be made so unless a specific endorsement of the temperance views of the late Governor Pattison were included, and further that unless it were so amended as to make such statement he would appear in the convention when it re-assembled and fight the matter out there.

The contest in the committee on resolutions overshadowed the interest in the defeat of Mayor Tom L. Johnson in the state central committee, although that had been brought about early in the day and was generally known.

SHOOTS GIRL; KILLS HIMSELF.

Tragedy in Sioux City May Result in Two Deaths.

Sioux City, Ia., Aug. 22.—"Babe" Smith was shot and fatally wounded in her room by her lover, Frank Smith, alias Fred Scousy. After shooting the girl Smith immediately turned the weapon on himself, death resulting at once. The dead man had been a rubber in a local bathhouse.

To Entertain Bryan.

Chicago, Aug. 22.—Arrangements for the entertainment of William Jennings Bryan during his visit to Chicago early next month include a reception and luncheon at the Iroquois club and a banquet at the Jefferson club. It is the aim of the entertainment committee to make the latter an event of great political importance.

HUMID WEATHER IN MICHIGAN.

Results in Three Deaths and Seven Prostrations.

Detroit, Aug. 22.—One fatality in Detroit and two in the state, three prostrated in the city and four in the state is the record of the hot and humid weather in Michigan Tuesday. Many men were obliged to stop work and a few plants had to shut down. The dead:

A Live Wire

Every nerve is a live wire connecting some part of the body with the brain. They are so numerous that if you penetrate the skin with the point of a needle you will touch a nerve and receive a shock—pain it is called. Aches and pains come from a pressure, strain or injury to a nerve; the more prominent the nerve the greater the pain. When the pain comes from a large nerve it is called

Neuralgia

whether it be the facial nerves, or the heart, stomach, sciatic or other prominent nerve branch. To stop pain, then, you must relieve the strain or pressure upon the nerves. Dr. Miles' Anti-Pain Pills do this.

"I suffered intense pain, caused by neuralgia. I doctored and used various medicines without getting relief until I began taking Dr. Miles' Anti-Pain Pills. They did me more good than all the medicines I ever used. They never fail to cure my headaches, and their use never leaves any bad after-effects."

Men Past Sixty in Danger
More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. Mr. Rodney Burnett, Rockport, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." McCausland has ordered one of the same engines of Mr. Musser for use in his launch, to replace the engine now in the boat.

Sheriff Erickson came into Deerwood from Ross lake Wednesday with L. P. Hanson in custody. Seventeen years ago while Hanson was living at Ross lake, his wife was shot supposedly by him. He brought her remains to Aitkin along with a load of venison. There he was captured and sent to St. Peter as insane. From St. Peter he was transferred to Fergus Falls and later to Anoka. On July 25 he was found missing and Sheriff Erickson traced him to Ross lake where he had gone to look after his farm.

Entertainment A Success

The entertainment given in Walker's hall last evening in charge of Miss Nettie Angel was in every way a success. The entertainment opened with an instrumental solo by Miss Nellie Woelfert, who is always good. The songs, drills and dialogues by the little folks were all entertaining and good, and reflected much credit upon the one who trained them. The solo by Miss Irene Cain was very much enjoyed. Miss Nellie Woelfert and Miss Nettie Angel rendered a very difficult instrumental duet and did it well. There was no encore until the violin duet by Rachel Whitford and Effie Drexler. The audience applauded until they went on the stage for a second duet. The crowning features of the entertainment were the recitations of Miss Eleanor Just, who is a post graduate from the school of oratory of the Northwestern University. Miss Just recites exceptionally well. She has a rare ability for impersonation, a keen sense of humor and a very impressive style. She rendered two selections after both of which she received a long and hearty applause. Then came in each case an encore. The audience was not at all disappointed when she went on the stage the second time. She was thoroughly enjoyed by all and we hope she may appear before the public again in Brainerd.

We wish to thank all the outside people who helped us in this entertainment, especially Miss Just and Miss Woelfert, Rachel Whitford and Effie Drexler, without whose help our entertainment could not have been the success it was.

BOY RUN OVER

Earl Hughes Has Ankle Crushed Under Wheels of Dray While Catching A Ride

Earl Hughes, of Riceville, Iowa, who with his aunt, Mrs. Augustus Russell, is visiting relatives here, had his left ankle crushed by being run over by W. H. Bolton's dray, driven by Fred Cannon. It seems the boy was playing near the Kindred street bridge and when the team came along he, with others, climbed on the side to catch a ride. In attempting to get off near Warren's blacksmith shop he fell and the hind wheel ran over his left leg crushing it at the ankle. The boy was taken to the residence of Mr. Warren, and afterward taken to the home of Frank Warren, on South Seventh street, where Mrs. Augustus Russell is visiting. Mr. Cannon states that he did not see the boy fall and did not know he was hurt until he returned from his trip to Brainerd. On the other hand, Mr. Warren's blacksmith states that he saw the driver look back when the child lay there in the road screaming and he must have known that it was hurt.

Mr. Erlanson states that he will probably close the stock out at retail here in Brainerd and if he does so will open in about a week or ten days. The general opinion of the gentlemen present seemed to be that Mr. Young got a good price for the goods.

HOLD-UP MAN ON PASSENGER TRAIN

Bad Man Holds Up Fellow Passengers on No. 13 Last Night Near Carleton

JUMPS FROM THE TRAIN HERE

His Partner was Captured by Officer Hurley on Orders from Conductor

There was something doing on No. 13 last night. It took place in a car of harvest hands and started between Carleton and Duluth when a fellow undertook to hold up his fellow passengers, with the aid of a gun. Conductor Jack O'Brien took a hand and knocked the fellow down when a pal shoved a gun in O'Brien's face and ordered him out of the car. O'Brien left but returned and took the gun away from the fellow. The conductor telegraphed ahead for officers and as usual Henry Hurley was on hand and entered the car, which was locked from the outside. It was found that the ring leader of the trouble had jumped through the car window while the train was slowing down and escaped, but his pal was taken in charge. He attempted to show fight but Officer Hurley shook him up a few times and he concluded to be good.

The man in charge of the car of men had cold feet a good and plenty and made a run for the back coach every time there was any sign of gun play, but O'Brien was all the sand and but for the danger to the other passengers would have given the tough a taste of lead.

The man is supposed to be in hiding in or around Brainerd and it will be the part of wisdom for Brainerdites to keep their eyes out as the fellow was evidently a crook of the first water. He tried to get Mr. O'Brien to give him back his gun, evidently intending to stand the officers off if they tried to arrest him, but failing to get the gun he decided to seek safety in flight. It was impossible to learn how much money the fellow got from the other passengers, but the report was that he made several give up their dough.

A BAD RUNAWAY

Team Belonging to Peter Larson Endured in a Lively Race Around Deerwood Monday.

The team of Peter Larson, who lives east of Rabbit lake, created considerable excitement on the streets of Deerwood Monday evening about ten o'clock. The team, which was attached to a wagon with a hay rack, was standing along side a car on the spur and Mr. Larson was engaged in loading a calf from the wagon into the car when the team became frightened and started to run throwing the calf out and injuring it so bad that it had to be killed. The team ran down to Hage's store, then turned north and turned west at the next corner, crashing through the woods and finally bringing up in front of Mr. Benson's store. The wagon was almost entirely demolished, the rack being scattered all over the streets. The team was scratched up some but was not seriously injured.

Well and happy today; tomorrow appendicitis. Be safe. Get Dr. Adler's treatment. Johnson's pharmacy.

DAME RUMOR.

A DANGEROUS MISTAKE.

Brainerd Mothers Should Not Neglect Kidney Weakness in Children.

Most children have weak kidneys. The earliest warning is bed-wetting.

Later comes backache, headache, languor.

"It is a mistake to neglect these troubles. To blame the child for its own distress.

Seek to cure the kidneys—

Save the child from deadly kidney ills.

Doan's Kidney Pills cure sick kidneys.

Brainerd parents recommend them.

Mrs. S. T. Swanson, of 409 Ninth St., S., Brainerd, Minn., says: "We think a great deal of Doan's Kidney Pills.

We recently got a supply at H. P. Dunn & Co.'s drug store for two of our children

who were suffering from weakness of the kidneys. They were both quickly

benefitted by the use of Doan's Kidney Pills and it was only a short time after

beginning the treatment when the irregularity of the kidney secretions was

corrected and the distress and annoyance removed. Parents should appreciate

the value of Doan's Kidney Pills in cases of children afflicted with kidney

weakness. Their action is quick and sure and they are absolutely harmless."

until the last few years was supposed to be in-
